## Components of Race to the Top - District Fiscal Oversight

### Three components:

- Use of funds: allowability, allocability, reasonableness
- Tracking of funds
- Timing and release of funds

# Use of funds

7

- ❑ Applicable OMB cost principles, agency program regulations, and the terms of grant and subgrant agreements will be followed in determining the **allowability, allocability** and **reasonableness** of costs
- ❑ Reference guides:
  - Attachment T of the Grant Conditions
  - Department-approved application, Scope of Work, and Budget
  - Authorizing statute
  - OMB Circular A-87 and EDGAR chapter 80

# Use of funds: Allowability

Allowable costs are costs incurred by a grantee that are:

- ❑ Necessary for the performance of the award;
- ❑ Conforms with any limitations or exclusions set forth in the Federal cost principles;
- ❑ Consistent with the grantee's policies and procedures that apply uniformly to both Federally-financed and other activities of your LEA;
- ❑ Determined in accordance with generally-accepted accounting principles; and
- ❑ Not included as a cost in any other Federally-financed grant (unless specifically authorized by statute).

# Allowability: Pre-Award Costs

- You may use Race to the Top – District funds to pay for pre-award costs
  - Grantees are eligible to be reimbursed for pre-award costs from the date their award is announced, December 16, 2012.
  - All pre-award costs are incurred at the grantee's risk (i.e., the Secretary will not reimburse costs that are unallowable, unreasonable, or otherwise ineligible according to the Department's applicable regulations and/or OMB cost principles).

# Use of funds: Allocability

- An allocable cost is a cost that can be traced to specific activities of the grant project
  - “A cost is allocable to a particular cost objective if the goods or services involved are chargeable or assignable to such cost objective in accordance with relative benefits received.” (OMB Circular A-87)
  - An LEA must create mechanisms to ensure that its and its vendor’s expenditures align to the plan.
  - Indirect costs are allocated based on approved agreements.

# Use of funds: Reasonableness

- “A cost is reasonable, if in its nature and amount, it does not exceed that which would be incurred by a prudent person under the circumstances prevailing at the time the decision was made to incur the cost” (OMB Circular A-87)
- The Grantee will ensure that all Grant costs incurred using grant funds are necessary and reasonable. (Attachment T, condition I)

# Tracking of Funds

12

- Minimum requirement: Track revenue *and* expenditures by CFDA number
  - 84.416A for Race to the Top – District
- Source documentation may include cancelled checks, paid bills, payroll records, time and effort records, and contract documents
- “The Grantee will not commingle Race to the Top-District grant funds with other funds under control of the Grantee, even if such other funds are used for similar purposes.” (Attachment T, condition I)

# Timing and Release of Funds

13

- Options: **reimbursement**, cash advance, working capital advances\*
- All G5 draws must be based on immediate need, and LEAs should:
  - Request funds *after* a vendor submits a request
  - Minimize time between transfer of funds and disbursement by recipient (**3-5 days**)
- See Race to the Top - District Grant Conditions Attachment T, condition J

\*with prior U.S. Department of Education approval

# Fiscal System and Policy Requirements

14

- LEAs must have internal controls to:
  - Connect G5 draws to release of funds to vendors and promptly collect evidence of expenditures
  - Track times and dates
    - Clock starts with revenue in
    - Clock ends with expenditure out

# Fiscal System and Policy Requirements

15

- You must return any interest earned on cash advances of grant funds in excess of \$100 each year to the Department.
  - Remit interest promptly, and at least quarterly to:
    - U.S. Department of Education
    - P.O. Box 979053
    - St. Louis, MO 63197-9000
  - The remittance should be accompanied by a letter stating that the remittance is for “interest earned on Federal funds” and should include the DUNS number. (Grant Condition Enclosure 4)

- If you do not have an indirect cost rate agreement:
  - You must submit an indirect cost rate proposal to your State within 90 days of the award date.
  - You are limited to drawing down 10% of direct salaries until a rate is formally established.
  - When a rate is formally established, you may only recover indirect costs on or after the date of your proposal or the new award date (whichever is later).
  - If your newly established rate is higher than the temporary rate approved in your application, you must get approval from your program officer in order to shift direct costs to indirect costs.

# Fiscal Oversight Lessons Learned

- Publications: Per EDGAR 75.620, publications require an attribution statement. The grantee shall ensure that any publication that contains project materials also contains the following statements:
  - *The contents of this (insert type of publication e.g., book, report, film) were developed under a grant from the Department of Education. However, those contents do not necessarily represent the policy of the Department of Education, and you should not assume endorsement by the Federal Government.*

# Fiscal Oversight Lessons Learned

- **Equipment: use, management, disposition**
  - **Equipment** means tangible, nonexpendable personal property having a useful life of more than one year and an acquisition cost of \$5,000 or more per unit. A grantee may use its own definition of equipment provided that such definition would at least include all equipment defined above. (EDGAR 34 CFR 80.3)
